EDUCATION

SRM Institute of Science and Technology, Kattankulathur 2023 – 2027
B.Tech. in Computer Science and Engineering – Artificial Intelligence and Machine Learning CGPA: 8.57/10

TECHNICAL SKILLS

Languages: Python, C++, C, Java, JavaScript, SQL, HTML, CSS
Frameworks & Libraries: PyTorch, TensorFlow, Scikit-learn, Flask, OpenCV, Hugging Face Transformers, NumPy, Pandas, Matplotlib
Developer Tools: Git, GitHub, Docker, Linux, VS Code, Kaggle
Core Skills: Data Structures & Algorithms, Machine Learning, Deep Learning, Natural Language Processing, Computer Vision

PROJECTS

Explainable Multi-Class Deepfake Detection Jan. 2026 – Apr. 2026
Python • PyTorch • OpenCV • CNN • Grad-CAM

- Developed a CNN-based image classification system to distinguish **Real, Deepfake, and AI-generated images** using a balanced multi-source dataset.
- Implemented image preprocessing, data augmentation, and optimized CNN training to improve classification performance.
- Integrated **Grad-CAM** to generate visual explanations of model predictions and improve model interpretability.
- Achieved **93.61% test accuracy** through optimized model architecture and training.

Efficient Emotion Classification using DistilBERT Feb. 2026 – May 2026
Python • PyTorch • Hugging Face Transformers • DistilBERT

- Developed a **DistilBERT-based NLP classification system** to predict six emotion classes from text.
- Applied **mixed-precision training (AMP)** to improve training efficiency and optimize computational resource usage.
- Implemented **dynamic quantization** for deployment optimization, reducing model size by **48%**.
- Achieved **95.12% classification accuracy** while maintaining a more efficient deployment footprint.

Student Academic Dashboard Jun. 2026 – Present
Python • Flask • MySQL • HTML • CSS

- Developed a Flask-based academic dashboard integrating **MySQL** for retrieval and management of student academic records.
- Implemented backend routing and database queries to dynamically display **marks, attendance, and class timetable** information.
- Built a responsive HTML/CSS interface for streamlined access to academic information.
- Integrated application logic with database operations to provide dynamic student-specific academic data.

CERTIFICATIONS

AWS Certified AI Practitioner | *Amazon Web Services* Apr. 2026 – Apr. 2029
SAP Certified – SAP Generative AI Developer | *SAP* Mar. 2026 – Mar. 2027
Microsoft Certified: Azure Fundamentals | *Microsoft* Feb. 2026
NPTEL – Introduction to Machine Learning | *NPTEL* Sep. 2025
Oracle Certified Foundations Associate | *Oracle* Feb. 2025
